<i>Phone number</i>	

Project Co-Supervisor

<i>Surname</i>	
<i>Name</i>	
<i>Job Position</i>	
<i>Department</i>	

<i>Laboratory</i>	
<i>E-mail</i>	
<i>Phone number</i>	

Project details

<i>Title</i>	IMS (Internships Management System)
<i>Detailed description:</i> The goal of this internship is to design and implement a small-scale information system to manage internship data for the BSc in Computer Science program. The system should allow authorized users (e.g., academic tutors, company supervisors, and students) to store, update, and retrieve key information about internships, including student details, hosting institutions, supervisors, internship periods, and evaluation outcomes.	
<i>Duration (month – max 12)</i>	6
<i>Duration (hours)</i>	150
<i>Open positions</i>	4

Internship Skills

<i>Technical requirements:</i> Python programming, SQL	
<i>Other skills</i>
